

## **In Memory Professor Nanne Weber 1959–2011**

---

It is with great sadness that we have heard that Professor Nanne Weber has passed away at home last Friday 12 August, after a long illness. Nanne was a research scientist at KNMI in the Netherlands for more than 25 years, and particularly specialised in climate modelling where she was recently awarded a chair at the University of Utrecht. Nanne was one of the editors of the first special issue of *Climate of the Past*, and had become a regular editor of the journal, a duty she continued conscientiously until only weeks ago. The present and past editors in chief and editorial board of *Climate of the Past* express their deep and sincere condolences to Nanne's family and colleagues.
