

Valérie Masson-Delmotte suspends editorship for IPCC impartiality

Valérie Masson-Delmotte has suspended her CP editorship to avoid any potential for conflicts of interest with her current task as a Coordinating Lead Author of Chapter 5 of Working Group 1 of the IPCC 5th Assessment Report (AR5). This step conforms to the Conflict of Interest policy of IPCC. However, Valérie will remain a passive member of the Editorial Board and resume her active editorship sometime in 2013 after completion of the AR5.

We regret that we have to temporarily do without Valérie's services, but are also proud that a CP editor is charged with such an important task in IPCC. This is a wonderful opportunity to thank Valérie for her extraordinary engagement for CP over the past years and wish her good luck for the big task lying ahead of her!

CP Co-Editors in Chief
